SUMMARY

As a Frontend Developer for a leading pet pharma company, I have developed expertise in creating responsive, user-friendly interfaces using React, TypeScript, NextJS, TailwindCSS, Storybook, and KontentCMS. I have successfully contributed to the migration of over 100 websites from Drupal to NextJS, while ensuring timely project delivery in an Agile environment.

With a strong background in HTML, CSS, and JavaScript, I have developed and maintained high-quality frontend components and features for various websites. My experience in troubleshooting and resolving bugs has helped ensure a seamless user experience across multiple devices and platforms. I have also participated in Scrum ceremonies and contributed to our documentation and code reviews, maintaining high standards of quality and performance.

As an aspiring Full Stack Developer, I am motivated to expand my skillset and work on server-side development, databases, and other areas of web development. I am passionate about continuously learning and staying up-to-date with the latest trends and technologies in the industry. My self-taught background has taught me the importance of taking ownership of my work, working independently, and thriving in fast-paced environments.

I am excited to contribute my skills and motivation to a new opportunity where I can learn and grow as a developer, while contributing to the success of a dynamic team.

Secret Source - Frontend Developer

End Client: Elanco

As a Frontend Developer for a leading pet pharma company, I am responsible for developing and maintaining high-quality frontend components and features for a variety of websites. My main responsibilities include:

- Developing and maintaining high-quality frontend components and features using React, TypeScript, NextJS, TailwindCSS, Storybook, and KontentCMS.
- Troubleshooting and resolving bugs to ensure a seamless user experience across multiple devices and platforms.
- Participating in Scrum ceremonies, including daily stand-ups, sprint planning, and retrospectives, to ensure timely project delivery.
- Developing generic and reusable code to maintain consistency and streamline future development.
- Contributing to our documentation and helping onboard new developers.
- Participating in code reviews, ensuring high standards of quality and performance.
- Staying up-to-date with the latest trends and technologies in frontend development and contributing to the overall growth of the team.

During my time at the company, I have been successfully contributing to the migration of over 100 websites from Drupal to NextJS with Headless CMS from Kontent.ai. My work in an Agile environment has allowed me to deliver high-quality work while ensuring timely project delivery.
